

# HOST A CONGRESSIONAL STORE TOUR

## SHARE YOUR STORY WITH YOUR MEMBER OF CONGRESS!

With so many public policy issues touching the independent supermarket industry, meeting with your Member of Congress and their staff is the best way to show how federal issues affect your business, employees, and your day-to-day operations. A tour of your retail store or distribution center will give your Member of Congress a firsthand look at how you operate and how issues related to labor, health care, and more have a very real impact on your day-to-day operations.

## WHAT DOES A CONGRESSIONAL STORE TOUR INVOLVE?

Please budget 60 minutes to show your Member of Congress around your store or distribution center. This is an opportunity to highlight parts of your store that you find unique or are especially proud of, discuss issues your company faces, and call to attention areas where your Member of Congress can support main street grocers.

To make the experience as easy as possible, prior to your tour, NGA will handle all logistics including coordinating with your Member of Congress' office, and answering any questions you may have.
