SPECIAL RECOGNITION

Kellogg's ESG Excellence Awards

The heart of a good business strategy focuses on wellbeing, people, community, sustainability and beyond. Over the past few years retailers have made great strides in integrating and maintaining these elements that are categorized under the Environment, Social and Governance (ESG) approach. Is this methodology one that you've been incorporating? How have you enhanced your relationships with employees, suppliers, customers and communities? Integrated diversity, equity and inclusion efforts into your store? In what ways have you implemented changes to safeguard the environment?

Unilever's People Positive Award

It goes without saying that retailers are on the front lines of their communities and in this prominent role, it's essential to place an emphasis on diversity and inclusivity. Cultivating not only a diverse workforce, but society takes work, and we know you've been diligently implementing new efforts to reflect these values. Tell us what steps you've taken to break down barriers and create a more inclusive environment. How have you celebrated your staff while inviting new perspectives? How have you elevated and developed underrepresented individuals? Tell us what diversity and inclusion efforts you have integrated.
